

## Euro Media France supports Solidays

Euro Media France is teaming up for the 4<sup>th</sup> consecutive year with "Solidarité Sida" in order to provide coverage of the 12<sup>th</sup> edition of the Solidays which shall take place on 25, 26 and 27 June on the field of Longchamp.

Chantal Barry, Chairwoman of Euro Media France, is proud to announce "We have decided to support the action carried out by the teams of Solidarité Sida, by offering the technical resources necessary for the audiovisual coverage of the concerts". Euro Media France, leader in audiovisual services, provides the technical and human resources indispensable for the coverage of numerous concerts every month, whether or not they are recorded or broadcast live.

In order to provide coverage of the three days of concerts and to offer quality archives to Solidays, Euro Media France will provide free of charge 2 mobile control OBtrucks (OBtrucks L3 and L4 - formerly OBtruck 730 and OBtruck 18) and 14 cameras (for the "Paris" scene and the "Bagatelle" scene). The images shall be rebroadcast live on giant screens of the scenes and on the France 4 broadcast on Saturday night. These images will provide video coverage to the largest number (160,000 festival-goers) for the 80 scheduled concerts.

Chantal Barry also adds: "I am very happy that there are 60 Euro Media France technicians among the 1,500 volunteers at the Festival. They have all agreed to take part in this essential support adventure. The whole of society is thus united beside the association Solidarité Sida, in the face of the illness, since this is not the time to give up!"
